

Donau Data Solution

FARO

Unlocking the value of your data to more rapidly and predictably achieve program objectives

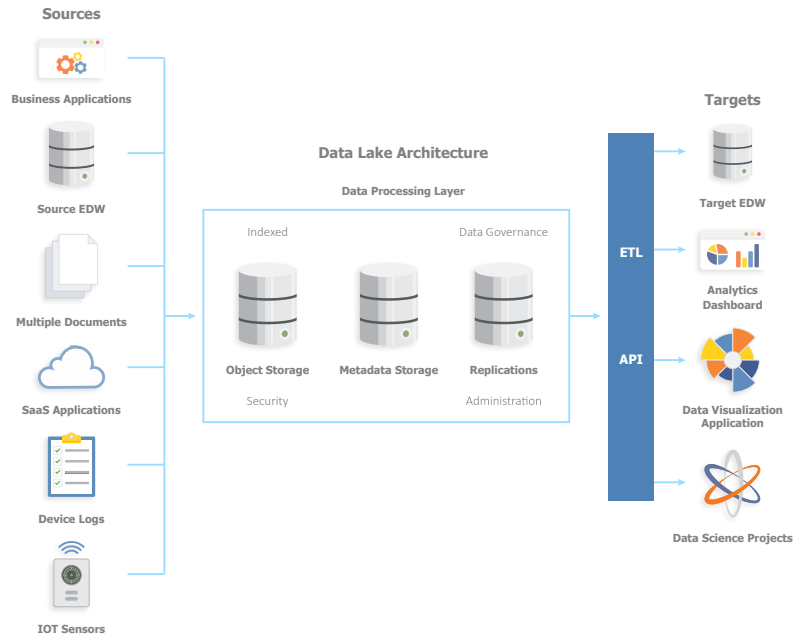

For organizations requiring information analysis in dynamic visualizations that meet immediate and future needs

Product Overview

Delivered as a solution to collect and aggregate data for pipeline analysis (streams, real time and batch), extract, transform, and load data into useful formats, organize and filter data for structured and unstructured utility, and establish data warehouse and data lake components.

Business Level Benefits

- Delivering program level support for data analysis
- Data automation to reduce manual steps.
- Development of program linked MVPs (productivity, decision-management)
- Faster implementation through proven practices
- Performance improvements for large data sets

Features

Data Source Management

Native and customer-specific data ingestion options to speed data onboarding into data management ecosystem

Data Repository

Modern data processing layer with baseline index, security, governance, and administration

Data as a Service

Delivery of curated and raw data elements to customer specified target destination on customer-defined schedules

FARO Differentiators for Government

You can count on FARO's Solutions to support customer confidence in IT execution:

- Pre-Engineered Solutions – We removed the “some assembly required” issues with low risk, proven solutions, that reduce delays in implementation
- Customer Site or Cloud Friendly – FARO works with any FedRAMP Moderate Public Cloud
- Team Support – We are integrated, with named resources that align as an extension of you existing team
- Deployment Support – Fully Managed or Shared Responsibility
- Compliance Support – Unlike other vendors, FARO is at your side with NIST, FIPS, HIPAA, and State-specific compliance and audit tasks.
- 24x7 Support – Our team is providing “around the clock” support including night and weekend deployments with your teams or on behalf of your teams
- Engineering Support – Connecting and supporting defined solutions in a complicated ecosystem of your environment

Compatibility Model

Donau can be integrated with numerous popular products including:

- Microsoft SQL
- Oracle
- MariaDB
- Snowflake
- Tableau
- PowerBI
