

Porto Portal

FARO

Providing secure web or mobile device access to previously internal systems

For organizations requiring entry points to enterprise information to manage data and applications more easily

Product Overview

Portals enable internal or external users and partners to view and organize data independently, often buying you time in making back-end changes while delivering a better constituent experience.

Business Level Benefits

- Better constituent experience
- User access control
- Integration with other applications
- Improved security
- Wide range of personalization

Features

Functionality

Allow external users to access the information they need, trigger workflows that are connected to your other systems and data, and self-serve

Flexibility

Ability to constantly add new features such as content management, analytics and reporting, and search navigation

Focus

Deliver a one-stop client interaction experience on mobile and web

FARO Differentiators for Government

You can count on FARO's Solutions to support customer confidence in IT execution:

- Pre-Engineered Solutions – We removed the “some assembly required” issues with low risk, proven solutions, that reduce delays in implementation
- Customer Site or Cloud Friendly – FARO works with any FedRAMP Moderate Public Cloud
- Team Support – We are integrated, with named resources that align as an extension of you existing team
- Deployment Support – Fully Managed or Shared Responsibility
- Compliance Support – Unlike other vendors, FARO is at your side with NIST, FIPS, HIPAA, and State-specific compliance and audit tasks.
- 24x7 Support – Our team is providing “around the clock” support including night and weekend deployments with your teams or on behalf of your teams
- Engineering Support – Connecting and supporting defined solutions in a complicated ecosystem of your environment
