

Hercules Gateway

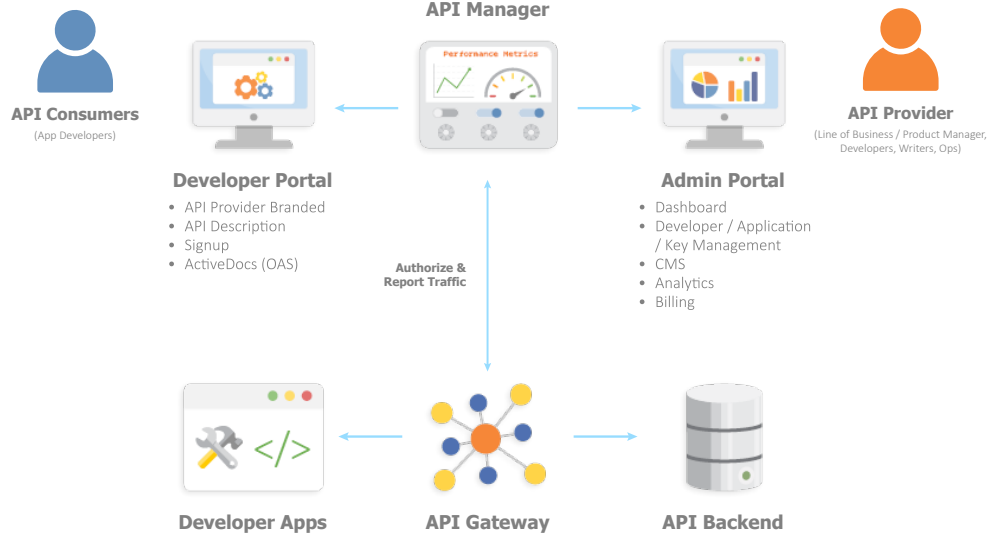

FARO

Modernize your systems securely with an API centric cloud gateway

For organizations upgrading, connecting, modernizing or changing systems

Product Overview

Microservices and APIs are the foundation for rapidly developing innovative application components to meet new program, policy, and legislative needs.

Business Level Benefits

- Improved Security
- Back-end Systems Availability
- Creating Technology Flexibility
- Re-usability of Assets
- Better Transaction Observability
- Performance Management
- Lowering Total Cost of Ownership

Features

API Traffic Control

Use self-managed or cloud components that provide traffic control, security, and access policy enforcement

API Program Management

Centralize control of your API program – including analytics, access control, monetization, developer workflows, and more

Legacy Support

FARO’s gateway can support your legacy protocols (e.g., SOAP XML for older applications or external interfaces)

FARO Differentiators for Government

You can count on FARO’s Solutions to support customer confidence in IT execution:

- Pre-Engineered Solutions – We removed the “some assembly required” issues with low risk, proven solutions, that reduce delays in implementation
- Customer Site or Cloud Friendly – FARO works with any FedRAMP Moderate Public Cloud
- Team Support – We are integrated, with named resources that align as an extension of your existing team
- Deployment Support – Fully managed or shared responsibility
- Compliance Support – Unlike other vendors, FARO is at your side with NIST, FIPS, HIPAA, and State-specific compliance and audit tasks
- 24x7 Support – Our team is providing “around the clock” support including night and weekend deployments with your teams or on behalf of your teams
- Engineering Support – Connecting and supporting defined solutions in a complicated ecosystem of your environment

Compatibility Model

Hercules Gateway can be integrated with numerous popular products including:

- IBM / Red Hat
- Microsoft Azure
- AWS
- Salesforce (Mulesoft)
- Software AG
- Axway
- Kong
- Google (Apigee)
