Vermillion Cloud Solution

FARO

Supports partial to complete management of cloud resources or infrastructure and includes migration, configuration, optimization, security, and maintenance

For government entities seeking to safely, securely and rapidly pivot to or expand cloud transformation

Product Overview

Delivered as a managed cloud solution in private, hybrid, and public cloud environments, hardened for security and compliance with options at FedRAMP Moderate and High Monitored and controlled for access, spend, and performance.

Business Level Benefits

- Rapid progression without concern of skillset shortages
- Customer shared roles for cloud (e.g., for AWS) can be fully met by FARO
- Includes a complete concept of operations for your cloud journey
- Assistance in logging, cloud monitoring, and other compliance concerns (e.g., connections to SIEM)

Important Business Objectives
Right Performance & Quality
Compliance & Data Security
Legacy System
Cost

Features

Rapid Scalability

Massive capacity across private, public and hybrid cloud environments

Security

FedRamp options and many other built in compliance components

Resiliency

Multi-region data center and active-active high availability options

FARO Differentiators for Government

You can count on FARO's Solutions to support customer confidence in IT execution:

- Pre-Engineered Solutions – We removed the "some assembly required" issues with low risk, proven solutions, that reduce delays in implementation
- Customer Site or Cloud Friendly – FARO works with any FedRAMP Moderate Public Cloud
- Team Support – We are integrated, with named resources that align as an extension of your existing team
- Deployment Support – Fully managed or shared responsibility

- Compliance Support – Unlike other vendors, FARO is at your side with NIST, FIPS, HIPAA, and State-specific compliance and audit tasks
- 24x7 Support – Our team is providing "around the clock" support including night and weekend deployments with your teams or on behalf of your teams
- Engineering Support – Connecting and supporting defined solutions in a complicated ecosystem of your environment

Compatability Model

Vermillion can be integrated with numerous popular products including:

- AWS
- Azure
- Google
- vIBM
- Private, Hosted and Hybrid
